Yeah, heading off to Brooklyn on the 5<sup>th</sup>.

Frank, can you shoot for early next week?

Thanks Pete. So I assume that means you will be elsewhere starting September 5<sup>th</sup>? If so, Frank, do you think you or other GES personnel can do the work within that timeframe?

Hey Guys,  
I'm around until the Labor Day weekend covering the Morgan Site. Let me know when you want to complete the tasks identified.

Hi:

Attached are the updated DWO for the rest of the month. Frank, please let Pete and I know when you and Joe plan to be in the Niagara Area to work on the final touches at HTC & NFB. Obviously, I won't be able to travel for one day's work but I hope Pete will be able to coordinate with you both. Pete, we just have to take the electric pole down at NFB and stage in Warehouse #3. At HTC, we need to shore up the high vis fencing and fill the pot holes in the roadway with asphalt (From our sampling event). If there are other GES personnel in the area, that is also an option if Pete can coordinate.

Thanks

Regards,
